ANNUAL INDEX

Volume XVII

January - December

1952

◆

SUBJECT INDEX

Items designated S are short features; all others are full-length magazine articles.

Atomic Energy

	Issue	Page
Accurate Production control based on Atomic Energy	May	45
Atomic Energy—and the impact of a giant-size plant on the Industrial West	Dec.	64
"Baby" reactor at North American will be used for research	Sept.	71
Western Industries Help Explore the Atom	May	37

Electricity, Electronics, Lighting

Battery Maintenance the modern way	Feb.	78
Communication—industrial microwave system	Dec.	44
Efficient Steam Generation	Dec.	80
Electronic air field lighting—S	Dec.	79
Electronic Finishing Process	Nov.	48
Electronics	Jan.	84
Fluorescent Lighting Pays Off in meat grading	June	45
Lighting increases accuracy in lumber grading	Dec.	42
New Electronics Uses	June	56
Planned Lighting	July	60
Printed Electronic Circuits	July	45
See Through Walls, Floors, Around Corners in your plant	June	33
Testing motors and fuses for overload	Oct.	46
Two-Way Radio—an effective, time-saving tool	Sept.	40

Subcontracting

	Issue	Page
Aircraft subcontracting	July	33
Atomic Energy—and the impact of a giant-size plant on the Industrial West	Dec.	64
Defense Contract Teamwork in Mountain States	Feb.	64
How Plastic Tools benefit the subcontractor	Mar.	43
Subcontractors' guide to Fabricating with Super Alloys	Mar.	61
Why Subcontractors must Learn About New Metals	Mar.	34

Metal Working

Assembled Dies cut production costs	May	76
Case Hardening with the Nitriding Process	Mar.	89
Ceramic Coating	May	72
Ceramic Coating	Nov.	36
Fabricating with Super Alloys	Mar.	61
Fabrication Process saves weight and saves metal	June	70
Forming Metal by Shot Blasting	Mar.	57
Hot Rolled Steel for low cost fabrication	Mar.	64
How Plastic Tools benefit the subcontractor	Mar.	43
Impact Extrusion	Mar.	52
More Western heavy fabrication plants needed—S	Mar.	110
New stretch-flattening Machines	May	74
New Type of Hydropress	May	56
Permanent Mold Casting	Mar.	99
Roll Forming	Apr.	45
Rubber Hydropress Forming	Mar.	47
Safety Pointers for Magnesium Fabricators	Mar.	68
Underwater Testing of Metals	Mar.	39
What's Ahead for the Metal and Metalworking Industries of the West?	Mar.	104

Aircraft subcontracting	July	33
Atomic Energy—and the impact of a giant-size plant on the Industrial West	Dec.	64
Defense Contract Teamwork in Mountain States	Feb.	64
How Plastic Tools benefit the subcontractor	Mar.	43
Subcontractors' guide to Fabricating with Super Alloys	Mar.	61
Why Subcontractors must Learn About New Metals	Mar.	34

Metal Working

Assembled Dies cut production costs	May	76
Case Hardening with the Nitriding Process	Mar.	89
Ceramic Coating	May	72
Ceramic Coating	Nov.	36
Fabricating with Super Alloys	Mar.	61
Fabrication Process saves weight and saves metal	June	70
Forming Metal by Shot Blasting	Mar.	57
Hot Rolled Steel for low cost fabrication	Mar.	64
How Plastic Tools benefit the subcontractor	Mar.	43
Impact Extrusion	Mar.	52
More Western heavy fabrication plants needed—S	Mar.	110
New stretch-flattening Machines	May	74
New Type of Hydropress	May	56
Permanent Mold Casting	Mar.	99
Roll Forming	Apr.	45
Rubber Hydropress Forming	Mar.	47
Safety Pointers for Magnesium Fabricators	Mar.	68
Underwater Testing of Metals	Mar.	39
What's Ahead for the Metal and Metalworking Industries of the West?	Mar.	104

Industrial and Labor Relations, Personnel, Training

	Issue	Page
Firm has plant in the city, office in the country, working smoothly	Dec.	50
Getting Your Ideas Across in the plant or in the front office	Nov.	40
Jobholders catechize Management	June	74
Labor-Management Council is a springboard for action	Sept.	68
Make Your Analysis by Stop Watch and Standard Data	Aug.	86
Santa Fe's Supervisor and Apprentice Training	June	59
Training Lift Truck Drivers Pays	Feb.	82
Washing employees' cars—S	Dec.	78

Maintenance, Plant Operation and Safety

Air cleaning of parts—S	Dec.	74
Battery Maintenance the Modern Way	Feb.	78
Better Maintenance—increased shop production	Sept.	46
Disaster Defense on a practical basis	Nov.	33
Noise Control	June	51
Power Transmission—design and use fundamentals	Dec.	39
Radiant Heating for shops	Apr.	38
Reducing vibration	June	50
Repairing cylinder heads—S	Dec.	83
Safety Pointers for Magnesium Fabricators	Mar.	68
S-T-R-E-T-C-H-I-N-G water supply 46 times	Nov.	59
Testing Motors and Fuses for Overload	Oct.	46
Washing employees' cars—S	Dec.	78

Materials Handling and Packaging

Air for Materials Handling	Apr.	14
Basic Trends in Conveyor Application	Aug.	124
Better Maintenance—increased shop production	Sept.	46
Booster Cable for Monorail System	Aug.	55
Bulk Handling of Liquid Sugar	Aug.	107
Cannery belt conveyor	Aug.	114
Compartmentized Box Cars cut bumping action	Aug.	98
Controlling Semi-Automatic Batching	Feb.	61
Derrick Launching for Tow Boats	Aug.	112
Distribution of bulk milk in large tanks, replacing the 10-gallon cans formerly used	Dec.	57
Don't Overlook your conveyor pulleys	Aug.	115
810-ft. Belt Conveyor in Potash Plant	Aug.	121
Gas Bottles Reconditioned by new system	Aug.	110
Glass Pipe	Apr.	35
Handling Bulk Sugar from Refinery to Consumer	Dec.	72
Hints to cut cost of Lift Truck Operations	Aug.	94
Lift Truck handling in paint plant	May	46
Loading Bulk Ore at Stockton	Oct.	86
Logs and Pulpwood Bundled, Strapped	Aug.	102
Materials Handling and Military Packaging	Sept.	36
Materials Handling in a Wholesale House	Feb.	50
Materials Handling should be the mother of plant design	Aug.	51
Ocean-Going Vans by-pass dock handling steps	Aug.	56
Pacific Coast Pioneers Package Delivery Methods	Aug.	58
Packaging-Materials Handling Institute and Show	July	40
Revised Military Packaging and Preservation Specs	Aug.	72
Standard Oil's interpreted solution of M-H Problem	Aug.	62
Straight-line Conveyor for Aircraft Parts	Aug.	77
Survey of Methods for Transporting Wood Chips	Aug.	126
Training Lift Truck Drivers Pays	Feb.	82
Unit load palletizing	Apr.	55
Unloading Time Reduced by 95% for Bulk Materials	Feb.	74
Which Comes First—the building or its use?	Aug.	48

Materials, Tools, Equipment

Ceramic Protective Coatings	Nov.	36
Fiber glass laminated jigs	Sept.	38
Geometric Tooling	May	39
Glass pipe	Apr.	35
Hydraulic debarker	Dec.	82
Metal Adhesive vs. Rivets or Welding	Mar.	72
Non-melting ice	Nov.	39
Oil Shortage for California?	June	73
Springs—their design, production, costs, uses	Oct.	43
Springs—part 2	Nov.	44
Springs—part 3	Dec.	53
Trunnion type jigs	Oct.	33
Wood Chips save the day	May	34
Wood Waste—What shall we do with it?	Apr.	31

Metals

Aluminum, annual industry review	Jan.	78
Aluminum, developments	Mar.	37
Aluminum, preventing staining when new	Apr.	49
Copper and Brass, annual review	Jan.	74
Ductile Iron	Mar.	38
New Metals, Atomic Energy Stimulates Development—S	Mar.	104
New Metals, Why Subcontractors Must Learn About Them	Mar.	34
Steel, annual industry review	Jan.	60
Steel, Production Statistics—S	Mar.	103
Steels, Boron—S	Mar.	110
Titanium, New Development in Operation	Nov.	69
Titanium, Where It Stands Today	Mar.	36

Painting and Finishing

Color Engineering—what it can do for your plant	July	29
Electronic Finishing Process	Nov.	48
New Paint Finishing Process	Apr.	62
Steam Spraying—a finishing course for production shops	June	63

Plant Design and Construction

	Issue	Page
Air Conditioned to satisfy 33 industrial problems—Sacramento Bee, Sacramento	Sept.	50
Fire Protection: a must in design—Pittsburgh Plate Glass, Torrance, Calif.	May	49
Firm has plant in the city, office in the country, working smoothly	Dec.	50
Materials Handling should be the mother of plant design	Aug.	51
Modern Steel Warehouse—Republic Supply Co., San Leandro, Calif.	July	48
Northrop-Anaheim's plant layout board	Dec.	77
Plan in 3 Dimensions	Aug.	104
Sanitation, Refrigeration, Beauty—Carnation Company, Phoenix, Ariz.	Feb.	54
The Western Plant Trend	Jan.	42
This Plant Cost Only $3.50 per sq. ft.—Security Parachute Co., San Leandro, Calif.	Oct.	53
This Plant Doubles in Brass—C. A. Norgren Co., Denver, Colo.	June	46
Which Comes First—the building or its use?	Aug.	48

Production Management, Methods, Costs, Quality Control

Accurate Production Control Based on Atomic Energy	May	45
Air Feed for screw machines	Sept.	60
Analysis by Stop Watch and Standard Data	Aug.	86
Controlling semi-automatic batching	Feb.	61
How Many Samples make a valid test?	May	60
Production methods for ceramic fixtures	Sept.	46
Production planning for Armored Hulls job	Oct.	33
Servicing Plywood Adhesives	Feb.	38
Southern California Industrial Engineering Survey	Feb.	68
Synchronizing Practice and Theory in Buying Equipment	Feb.	43
The Learning Curve (part 1)	Sept.	31
The Learning Curve (part 2)	Oct.	37
The Learning Curve (part 3)	Dec.	47
Time Studies by Ratio Delay	Oct.	78
Using Models to Develop Plant Efficiency	Feb.	42

Research and Development

"Baby" reactor at North American will be used for research	Sept.	71
Helicopters Open New Industrial Horizons	Feb.	35
New Electronics Uses	June	56
Noise Research	Nov.	42
Pilot Plant inside a paper mill	July	57
Printed Electronic Circuits	July	45
36-foot Plastic Boat cast in one piece	June	36
Underwater Testing of Metals	Mar.	39
Unique Approach—Washington State Institute of Technology	June	39
Utilization of Sulfite Liquor	Nov.	70
Western Industries Help Explore the Atom	May	37
Wood Chips save the day	May	34
Wood Waste—What shall we do with it?	Apr.	31
Wood Waste Recovery	Oct.	40

Welding

Arcair Torch	Mar.	83
Resistance Welding, New Process	Oct.	88
Spot Welding on "Impossible" Jobs	Mar.	77
Techniques for Armored Hulls Job	Oct.	33
Thermit Welding	Mar.	86
Welding Threatens Riveting	Mar.	112

Western Development

All-Coast Industrial Development Conference	May	70
Atomic Energy—and the impact of a giant-size plant on the Industrial West	Dec.	64
Iron Ore Exported	Oct.	86
Is the West Getting Its Share?	May	29
Six Questions About Western Industrial Trends	Jan.	46
The Western Plant Trend	Jan.	42
Western Dams are big metal fabrication jobs	Apr.	58
Western Ideas Spark New Engine Industry	Jan.	38
What Should the West Do to Get Its Share?	Oct.	60

Annual Industry and Commodity Reviews

Abrasives, Asbestos, etc.	Jan.	73
Aircraft	Jan.	57
Aluminum	Jan.	78
Atomic Energy	Jan.	88
Bedding	Jan.	61
Cedar Shingles	Jan.	65
Cement	Jan.	81
Chemicals	Jan.	76
Clay, Brick, and Tile	Jan.	80
Coal	Jan.	70
Communication Equipment	Jan.	88
Concrete	Jan.	77
Dairy Products	Jan.	87
Doors	Jan.	65
Electrical Appliances	Jan.	67
Electrical Industrial Apparatus	Jan.	67
Electrical Products (Miscellaneous)	Jan.	67
Electric Power	Jan.	67
Electronics	Jan.	84
Folding Boxes	Jan.	64
Food Products	Jan.	72
Forest Products	Jan.	62
Furniture	Jan.	89
Gas	Jan.	69
Gas Appliances	Jan.	70
Glass	Jan.	77
Hardboard	Jan.	63

	Issue	Page
Helicopters	Jan.	89
Instruments	Jan.	88
Lime	Jan.	77
Liquefied Petroleum Gas	Jan.	89
Lumber	Jan.	62
Mineral Wool	Jan.	77
Motor Vehicles	Jan.	85
Non-ferrous Metals	Jan.	74
Paint	Jan.	88
Paper Products	Jan.	64
Petroleum	Jan.	68
Photographic Equipment	Jan.	82
Plastics	Jan.	81
Plywood	Jan.	62
Pottery	Jan.	86
Pulp and Paper	Jan.	64
Radiant Heating	Jan.	67
Railroads	Jan.	71
Rubber	Jan.	86
Steel	Jan.	60
Stone Products	Jan.	77
Sugar	Jan.	71
Television	Jan.	84
Tools and Dies	Jan.	58

AUTHOR INDEX

	Issue	Page
Anderson, Aldon J.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	51
Barker, L. J.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	110
Bern, Robert—Power Transmission—design and use fundamentals	Dec.	39
Bleakley, W. Y., and C. C. Lacy—Staining of New Aluminum—At last, here's a way to prevent it	Apr.	49
Bogenrief, C. A.—Time Studies by a new method	Oct.	78
Bohman, Curt W., and Alan V. Levy—Why Subcontractors Must Learn About New Metals	Mar.	34
Braun, C. E., Grant Johnson and Wm. H. Dennick—Your M-H Problems have their roots in the field	Aug.	62
Braun, Robert H.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	36
Brown, P. W.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	53
Bullwinkle, Major Benjamin B.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	106
Burgin, C. O.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	62
Butler, Ralph C.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	63
Caddle, Bertram B.—Non-Ferrous Metals—A vigorous Western market is being recognized by major copper and copper alloy producers	Jan.	74
Carlson, E. T.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	111
Cole, Carroll M.—Testing motors and fuses for overload	Oct.	46
Day, Chas. H.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	51
Delventhal, Leo F., Jr.—Compartmentized Box Cars cut bumping action	Aug.	98
Dennick, Wm. H., Grant Johnson and C. E. Braun—Your M-H Problems have their roots in the field	Aug.	62
Depew, Bert W.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	109
Eastman, Dean H.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	63
Edgecumbe, R. H.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	64
Feliz, Frank E.—Cost formula may be key to Coast Ports Puzzle	Aug.	82
Flint, George L.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	104
Fuller, W. P., III—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	63
Fullerton, J. R.—How to Make Your Spot Welding Machine Do Some "Impossible" Jobs	Mar.	77
Gardner, H. L.—810-ft. Belt Conveyor in Potash Plant	Aug.	121
Gelber, M. S.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	63
Ghormley, Glen E.—The Learning Curve	Sept.	31
Ghormley, Glen E.—The Learning Curve	Oct.	37
Ghormley, Glen E.—The Learning Curve	Dec.	47
Gray, J. E., and F. C. Martin—Revised Military Packaging and Preservation Specs.	Aug.	72
Griffin, Robert H.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	52
Heller, Leslie C.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	65
Henkle, O. T., Jr.—25 Hints to Cut Cost of Lift Truck Operations	Aug.	94
Henning, Roy C.—Communication—industrial microwave system	Dec.	44
Hichman, Arthur—How Many Samples Make a Valid Test?	May	60
Hiller, Stanley, Jr.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	61
Hines, P. R.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	53
Holeman, John M.—Western Industries Help Explore the Atom	May	37
Homerberg, V. O.—Case Hardening with the Nitriding Process	Mar.	89
Hyler, John E.—Don't Overlook Your Conveyor Pulleys	Aug.	115
Johnson, Grant, C. E. Braun and Wm. H. Dennick—Your M-H Problems have their roots in the field	Aug.	62
Johnson, Lt. Col. Robert W.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	37
Jones, Jack—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	107
Karr, Payne—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	61
Keachie, Edward C.—Synchronizing Practice and Theory in Buying Equipment	Feb.	43
Kinney Co., James P.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	54
Lacy, C. C., and W. Y. Bleakley—Staining of New Aluminum—At last, here's a way to prevent it	Apr.	49
Landon, L. Evert—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	62
Larkin, W. B.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	51
Levy, Alan V., and Curt W. Bohman—Why Subcontractors Must Learn About New Metals	Mar.	34
Leyes, George—Fluorescent Lighting Pays Off in Meat Grading	June	45
Lovett, Frank P.—Ductile Iron—Now available as replacement for critical metals	Mar.	38
Lundberg, George E.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	108
Lusch, E. A.—Take the Shakes Out of Your Machines	June	50
Martin, F. C., and J. E. Gray—Revised Military Packaging and Preservation Specs.	Aug.	72
Mater, Milton H.—Wood Waste—What shall we do with it?	Apr.	31
Mattison, E. A.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	62
Meade, J. N.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	53
Morris, Stanley E.—Contributor to symposium: Materials Handling should be the mother of Plant Design	Aug.	54
Morrison, H. W.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	61
Nash, William F., Jr.—Contributor to symposium: What's Ahead for the Metal and Metalworking Industries of the West	Mar.	104
O'Hara, Charles—Springs—their design, production, costs and uses	Oct.	43
O'Hara, Charles—Springs are not expensive if designed right—Specifying proper tolerances is one way to cut costs	Nov.	44
O'Hara, Charles—Springs, and pointers on packaging and surface finishes	Dec.	53
Olson, Harold—Wood Chips Save the Day	May	34
Owens, J. E.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	67
Parker, A. R.—The Eyes Have It	July	60
Partch, Newell T.—Permanent Mold Casting—A new fabrication trend?	Mar.	99
Pask, Joseph A.—Ceramic Protective Coatings	Nov.	36
Pass, Ray—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	66
Rex, John—The Western Plant Trend—More square feet per dollar, and a beautiful daytime home	Jan.	42
Riegel, Harry I.—S-T-R-E-T-C-H-I-N-G the water supply 46 times in a steel production mill	Nov.	59
Rowe, A. J.—Industrial Engineering Survey—Does it show you off, or show you up?	Feb.	68
Rowe, A. J.—Contributor to symposium: Highlights of Progress in Materials Handling and Military Packaging	Sept.	66
Russell, D. J.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	62
Russell, George Vernon—Architectural Problems? None!	July	50
Schlessinger, Elmer—Helicopters . . . open new industrial horizons in the West	Feb.	35
Shear, Fred—Built-in Lubrication for Sliding Parts	July	36
Shelton, Frederick J.—Tradition in Reverse—"Seller Must be Satisfied"	Feb.	38
Sterrett, Chester K.—Contributor to symposium: What Should the West Do to Get Its Share?	Oct.	63
Swan, Robert—Western Ideas Spark New Engine Industry	Jan.	38
Twombly, Robert R.—Make Your Analysis by Stop Watch and Standard Data	Aug.	86
